## JETSTREAM APS INTEGRATION

Streamline the underwriting process with electronic requirement ordering

The critical task of processing underwriting requirements is always easier with the right technology solution. When it comes to ordering attending physician statements, the right solution is SmartOffice's integration with Jetstream APS. This integration combines the power of SmartOffice CRM with the excellent service of Jetstream APS, which typically completes APSs in 7 to 8 days.

### No-Fuss APS Ordering and Tracking

SmartOffice's integration with Jetstream APS helps case managers cut down on the amount of time and effort necessary to track and complete APS requirements as part of their pending case workflows.

Key Benefits		
<b>Place orders directly from SmartOffice</b>	Ordering an APS for a pending case takes only a few clicks in SmartOffice. Your order is transmitted electronically to Jetstream APS for processing. It's fast, and it lets you move on to other tasks more quickly.	
<b>Get status updates in SmartOffice</b>	Jetstream APS sends status information about all of your orders directly to SmartOffice. Just open your pending case records to see the latest updates.	
<b>Boost your efficiency</b>	There's no need to switch back and forth between SmartOffice and the Jetstream APS website to place orders and check status. The integration delivers both features to you in SmartOffice so that you can manage all of your underwriting processes in one place.
